Herfe Songs

Lyric Book

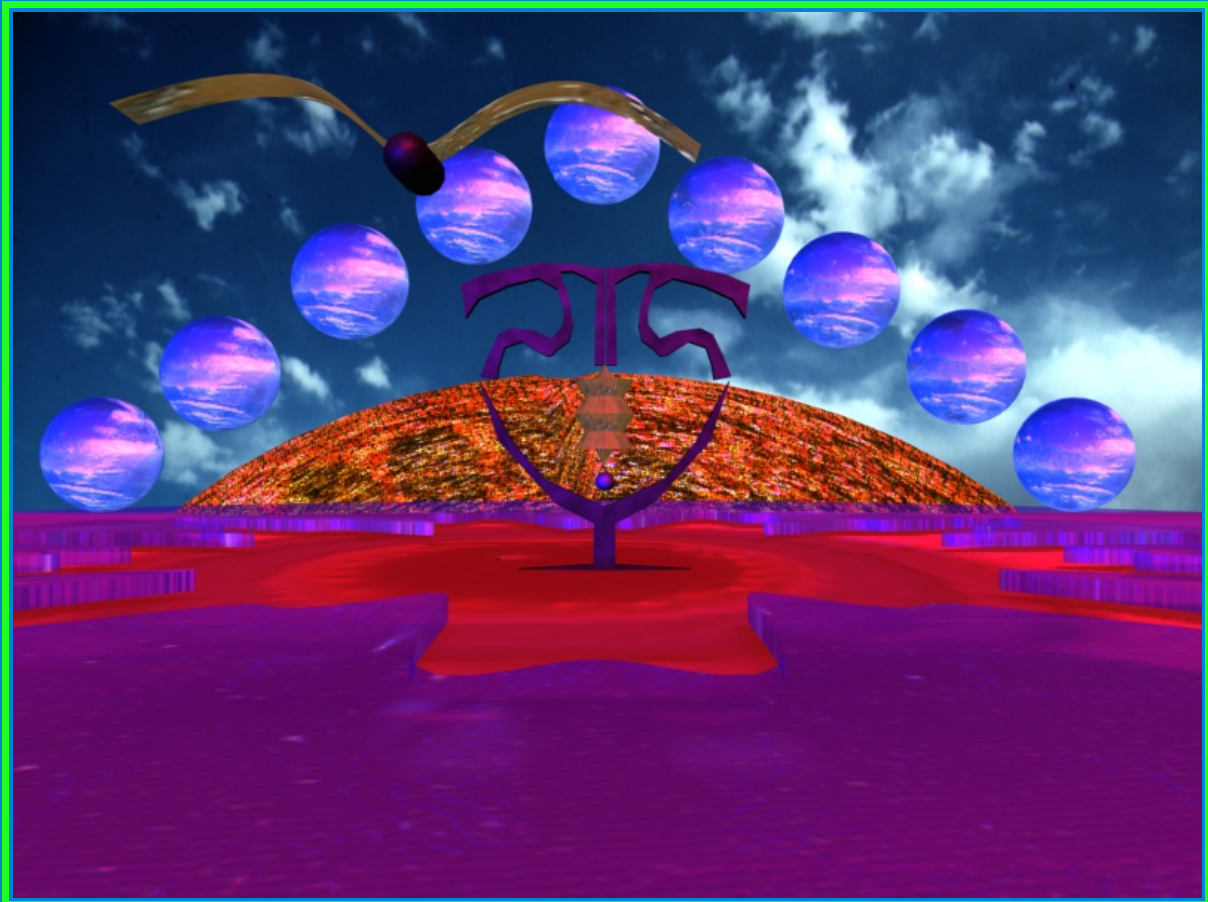

Herfe (FM)

In a play
Greed set in
Frays of god
No-one's sin

Reborn, yet cold
Still in shadow
Let us now evolve

Saintly murmurs
Frequent our hide
To tomorrow's hero
Now comes the blind

Lament so free
Wild, like honey

Satan's Clown

Shiny things
Shiny things
Forward
Forward

And death looked wild
And death looked free

Til we came to a sign
On the edge of the sky
Pointed to the world

And the movie's on
And the time is fun

I watch you bleed
I watch you burn
I watch you die
I watch you learn

For in this place
This wretched pit
We soar the skies
We saw it hit

Stars fall to the ground
Pick one up
Kick it around

Watch you learn
Watch you breathe

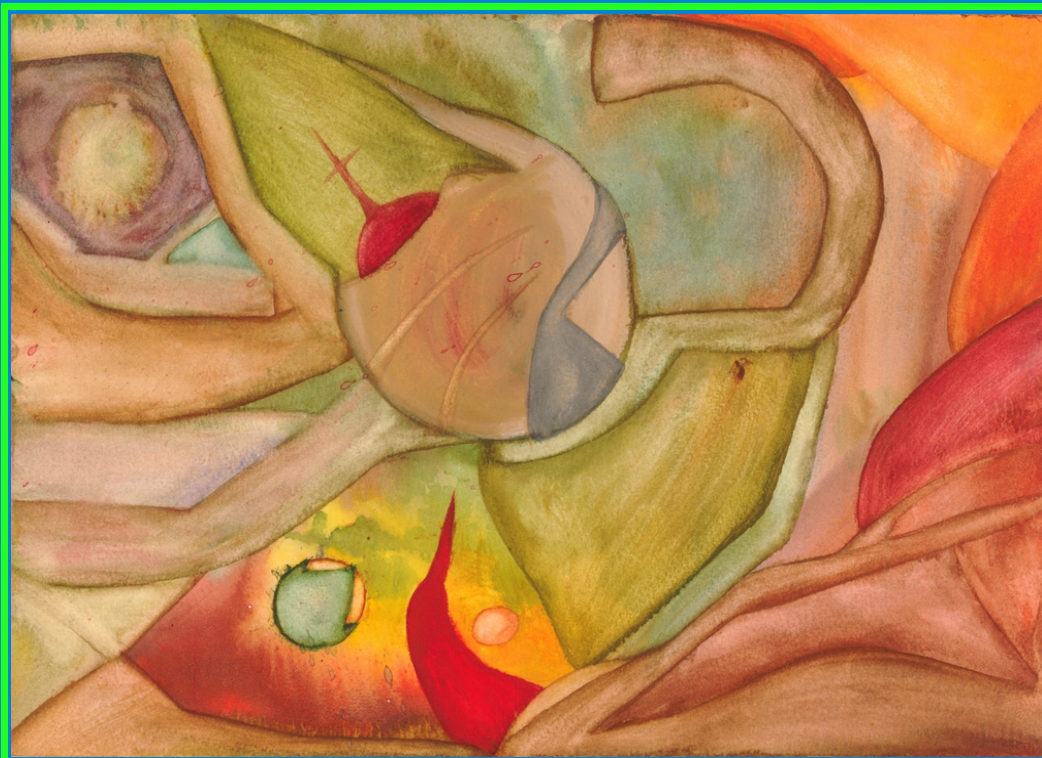

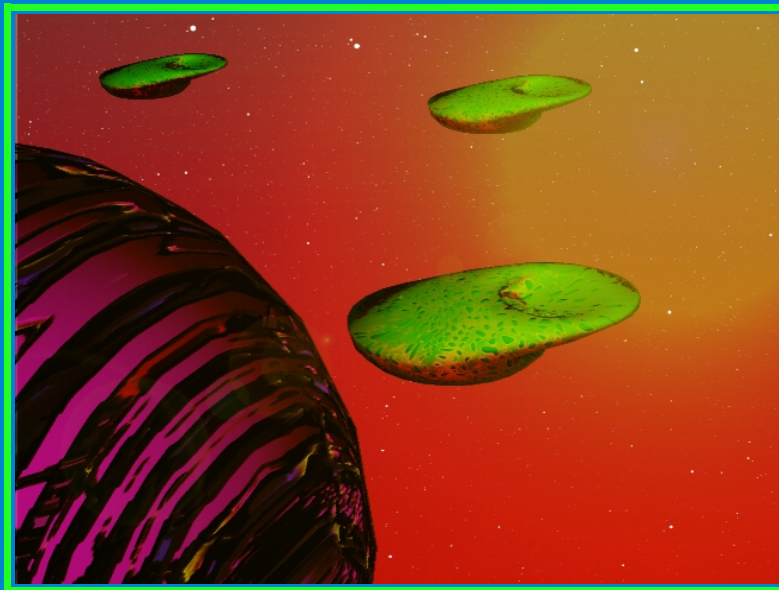

In a planet sky
We drifted across
Til we came to a sea
Born on the wave
A drifting light
A holy grave

Kill us now
Kill us now

Magick ship.. magick ship
Magick Ship
Flew through the skies
Ripped apart

Buildings of God
Will be torn down
Ancient mysteries
Satan's frown

Satan's clown

Psycho

In the dark recesses of my inner mind
There are places I do not wish to find
I see the stars

Crash and thunder
Almighty sunder
See the blood now
See the blood now

You're living in an ocean
An ocean of your dreams
You're looking at your door
You're looking at your door

Crash and thunder
Almighty thunder
Feel it slaying
Almighty praying
I'll wallow when I die
I hit the sky
I look at your eye
And I see my life flash before my skies

Voices listen
To the sad song of a mighty armaggedon
This is the divine time
This is the light
This is the fire
This is the causation of cosmic stars

See it drip down the walls
Oozing slime
Callous
Yet forgotten
I am time
I am time

Would you ever listen to my sad solitude?
Would you care?
As I dare dream of lies

And as I hope for more
Is there more to this mortal soil?

This blood-ridden planet
This earth
This time
This matter
This dimension of space and mind
I, heathen! I, heathen!

We adjusted to the gods
As they rain down their slaughter upon our brow
The dark dimensions to this ancient, sacred cow
O, sacred urn to the chapel of light
Be my guide and judge
And be my inner sight
Inner sight
As I count the waves that spin through my eyes
And I'll dream of different lands
Where the darkness flies

Test (Space)

Hearts pounding dance
Voices shadow death

Rain falling from the sky
Said dreamers shall fly

Layers of a falling fire
Glad to meet the wire
Nowhere we can hide
Ridges on a mountain side

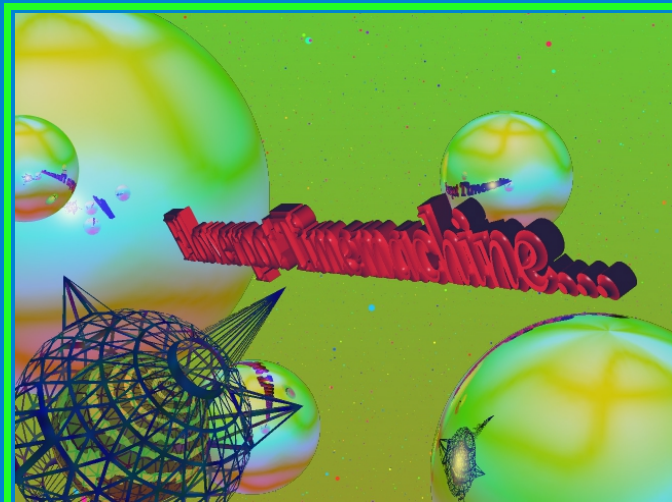

Of chapters that turn and twist
Snakes of flame pounce then hiss
Chambers of a frozen heart
Dimension is a cave
Rivers from the start

Let the devil erase it
Send it to hell
Kiss the whip of fear
Ringing as we melt
Ringing as we melt

Rain falling from the sky
Said dreamers shall fly

Layers of a falling fire
Glad to meet the wire

Of chapters that turn and twist
Snakes of flame pounce then hiss

Herfe (Solitude)

In a play
Greed set in
Frays of god
No-one's sin

Reborn, yet cold
Still in shadow
Let us now evolve

Lament so free
Wild, like honey

Saintly murmurs
Frequent our kind
To tomorrow's hero
Now comes the blind
Now comes the blind

Lament so free
Wild, like honey

Satan's Pound

Death
Twisted voices
Sing our song

Bring me the flame
Bring me time
Hours pass by
I die

Let the howling begin
Let Time be our sin
Let Time be our sin!

Crawling.. crawling
Across a sweeping time zone
We came to the pattern
We melted into the woodwork
Flames build up
Ending loss in mental energy

Can you hear them?
Voices playing in a dark room
Can you feel them?
Voices dying in a darkened light

Spinning
Flowers revolve around our mind
Our lives are over
Torrents burst
The screaming
The dark shadow unfolds
And our lives are over
Over
Over and over

All Burned Up

The world will fall
And all are stars
We'll catch the difference
All burned up
All burned up
All burned up
All burned up

Hear the voices
Singing prayer
Dreaming vision
Everywhere
All burned up
All burned up
All burned up
All burned up

Different plans
Come together
Nature wants
Bad, bad weather

An ocean came from the stars
Brought light
And dreaming vision
Up all the years
Whereof the times when we felt just right
All burned up
All burned up
All burned up
All burned up

Thing (Mix)

I walk in counsels
Legions of Fire
Denizens of nightmare
Unforgiven desire
Unforgiven desire
Legions of fire

Movies come in sequels
Dancers move in games
Charity of no hope
Men now in despair
Men now in despair

Calling across ages
To the central core
Tell them of Ishmael
Tell them of lore
Tell them of Lore

Republic of angel
Count the waves
That gently slip
Between the walls of caves

Republic of angel
Count the waves
That gently slip
Between the walls of caves
Between the walls of caves

Republic of angel
Count the waves
That gently slip
Between the walls of caves... caves
