SUNRISE ANGEL

The wretched life, the living flame
All this is inside us
All this taunts our forgotten sorrows and wakeful dreams

Nature is the living flame, the light of our days
Within this fabric of ceaseless folds is the start of the eternal life
This is a view in a storm, a parallel rejection

Peering into the great cavern, the eye cast itself into the pool
Images erupted into a dance of energies, and awareness beckoned
Light was the start, life is the end
The manifestation now peering at me turned from light to void
The eyes knew fire, the pointless god decreed solitude and exploded into the chapters of time

An expanse

The channels of everything transcended the planes of temporal reality
Then reached the heavens
The evolution of this Dragon would be of a holy different kind

Shadows webbed together and flew apart
In the depths of this place, a creature entered the twilight

What kind of prey was I, a formless spirit?
Moving to its sound and towards fear, the darkness closed in
And I... I was not

The shifting patterns transcend consciousness and erupt through a
membrane of cynical illusions
The web holds us fast for a while, fixing us to the rejection of eternity
Then shone a grail

EERIE DANGER

Born from reflection
Space in the eyes

Captivated sunrise
In the far reaches of Time

Brought to a point
The stars are born and die

Encased by energies
To a world we fly

Beginning a reaction
That echoes through matter

Reaches out tendrils
Grasping at life

Eternity in pieces
Let stellar beings grin

Summoning forces together
Star Magus is dancing spells

Invoking nature's ceremonies
From the depths of creation

Creature of mystic revelation
Being built from an age of stars

Destroyed by wars and greed

Born from reflection
Space in the eyes

Captivated sunrise
In the far reaches of Time

TYRANT

Tortured and chained
We lie in wait
Cast out this demon
Cast out this fate

In dreams we will awaken
All our hearts were fire
Driven across ages
Driven by freedom's desire

Signal rises to the sky
It emits a deathly cry
Forged at the End of Time
The calling swept throughout our minds

Overthrow, this monster so
Earth is strangled by chains
A horror of control
Breaks the very soul
Bring this creature down

Shatter it's iron grip
Forces start to rip
Tear limb by limb

Dark vortex of power
Cast down this dark tower

Ancient runes emblazoned on their coats
Mystic sigil of the power of stars

Discordian ripples through space-time

In pictures, there for all to see
Air, Water, Fire and Earth

Chaotic visions of reality

Some Arcane Magick cast on flames

Windswept, battered and bruised

Counted eternal
Systems of being
Lost from dreaming

WEED FEED

Ancient ritual of the stars

How I love you Mary J
I need you with me
Each and every day
And how I love you Mary J
Cosmic visions
That take me away

Smoke of space
Guide us to the stars
Left Earth to its troubles
Riddled with scars

How I love you Mary J
I need you with me
Each and every day
And how I love you Mary J
Cosmic visions
That take me away

How I love you Mary J
I need you with me
Each and every day
And how I love you Mary J
Cosmic visions
That take me away

HAYWIRED

In a point neither here nor there
We move towards the Magick faire
Of green cello waves in time
We journey throughout the Mind

We're going
Haywire again
Haywire
Haywire again
Haywire

In a world of living flame
The Towers around
Drive us insane
To the fields where we'll run and play
See the Moon crash down today

I'm going
Haywire again
Haywire
Haywire again
Haywire

Forever chills our opening minds
Into the worlds of a ceaseless divine
A New Age will take us away
We'll live tomorrow for another day

I'm going
Haywire again
Haywire
Haywire again
Haywire!
